## Synthesis and structural characterization of hybrid

October 10th, 2018 - Synthesis and structural characterization of the hybrid polymeric precursors The polymeric precursors were obtained by Pt 0 catalysed hydrosilylation reaction which involves the addition of reactive Si H bond from D4H to C C bond from DVB without evolution of by products

## Synthesis and characterization of hydrogels from cellulose

November 3rd, 2018 - In the method of swelling in the equilibrium the polymer is immersed in solvents selected with a range of values of solubility parameter The value of the solubility parameter of the polymer is equal to the solubility parameter of the solvent when the swelling is maximized The degree of swelling in the equilibrium is represented by the parameter Q
